PROFILE

Enthusiastic Java Developer with strong DSA skills and hands-on experience in building full-stack web applications using MERN.

EDUCATION

• PES Modern College of Engineering   Pune, India
  Bachelor of Engineering in Electronics Engineering   2022 – 2026
                                                                                                          62.00%

  S.S.D Higher Secondary School   Pune, India
  12th Standard   2021–2022
                                                                                                          82.33%

SKILLS

Technical: Java**,** Html, CSS, JavaScript, DSA Problem Solving

Frameworks: Express.js, Node.js, React.js

Databases: MySQL, MongoDB

Tools: GitHub, Atlas DB

Deployment Platforms: Netlify, Render, Railways

PROJECTS

Url Shortner with AI Integration   Nov'2024 - Mar'2025

- Developed a full-stack URL shortening platform using **MongoDB, Express.js, Node.js, and React.js.**
- Enabled users to generate **custom short URLs** with automatic redirection and click-tracking analytics.
- **Integrated AI** to auto-generate summaries and keyword tags for URLs, enhancing context and user engagement.
- Implemented authentication using **JWT and bcrypt** for secure user access and protected routes.
- Deployed **frontend on Vercel** and **backend on Railway**, with **MongoDB Atlas for cloud-based storage.**

WanderLust (FullStack Listing Platform)   Jan'2024 - May'2024

- Built a responsive full-stack rental platform using **MongoDB, Express.js, Node.js**, and **EJS templating**
- Implemented **JWT-based authentication** to secure routes, restricting listing features only to logged-in users.
- Integrated **Cloudinary for image uploads** and **Map API for location display**, enhancing user experience with rich media and geolocation support.
- Deployed the application **on Render** with **MongoDB Atlas as the database**, ensuring scalable and cloud-based hosting.

ACHIEVEMENTS

- Solved **over 100 LeetCode problems** (Easy & Medium), strengthening problem-solving and DSA proficiency.
- Recognized for delivering production-ready MERN stack applications with seamless API integration and cloud deployment.

CERTIFICATIONS

- Advanced **Java with Data Structures & Problem Solving**– Mar'24
- Full Stack **Web Developmen**t in MERN– Jan'25
